

PROPHETIC INDICATIONS

A Publication of The Glorious Restoration

"Coming Changes and the Shape of Things to Come"

by Ken Purvis

This edition picks back up with our January 15th writing, prior to our recent "Special Edition." We are continuing with the word from July 16, 2020, concerning "The Weakening of Nations and Sudden Collapse of Economies." One of the most evident signs of the closing of this present AGE, or SHIFT, regards the nature of contrast between light and darkness. It is perhaps better stated as the distinction between our *external* and internal worlds, resulting from the SEPARATION or splitting of the mind which is part of our SOUL. The partaking of the fruit of *the Tree of the Knowledge of Good and Evil* produced the external world, or projection of belief in place of direct knowledge. "*And their eyes were opened,*" meant the inner eye or spiritual eye was closed being replaced *by* the ego or *carnal mind*.

This is how JUDGMENT entered into the world or mind causing division and conflict. Guilt and fear replaced peace and certainty. Man has been uncertain ever since. His beliefs, thoughts and dreams resulted in illusions by which he "created" or manifested a world veiled off from the Glory of God in which he was created. From that state the world he saw would continually plunge further into the darkness of fear and guilt. The INNER PATH is the way back to the Tree of Life and the restoration of the SOUL. This is "*the WAY*" Jesus became in order to lead us back to "*the Father within*".

20-0716-02 NIGHT WORDS-THERE WILL COME A WEAKENING OF NATIONS-A SUDDEN COLLAPSING OF ECONOMIES (Part Two)

"Prepare to allow your whole thought system to be shaken. The sudden disruption of events and change of weather patterns, geological shifts and geological changes, will dislodge entrenched beliefs causing much

uncertainty. This is when *'men will cry out for the rocks to fall upon them.'* Those who think they are in power shall find themselves without *strength of voice*. Yet all of this is not to judge or destroy humanity, but to demonstrate the fallacy of beliefs that support their values.

- For this has caused the great disintegration of society as well as inequity.
- And this is what is coming forth even now, which *appears* to be a cry for justice,' (yet) is only releasing a series of *explosive results, catastrophic events* occurring -- the weight of voices shifting.

This is the day when the foundations of the earth will be greatly shaken and overthrown. The Kingdom of Heaven is (being) *birthed* in the heart of a people, even as you have begun to take greater note of a Priestly Kingdom. It is formed in the heavens.

- This is the establishing of the SOUL as the central authority of the government of Heaven.
- For this is where the SON is formed and birthed forth.

The world is fearful, yet their fear is misplaced. They do not understand why. Imaginations shall be judged, yet great grace will come upon those who adhere to the WORD and become willing participants in the voice of necessary change. It is the heart that must find its resource to be that of the Divine Will. Those who show *compassion* and *mercy* will become deliverers, for the very heart of God shall open up to such a people.

- True intercessors will arise with wisdom, knowledge and understanding, and strength of voice, and begin to cry out and call forth to the nations.
- Local bodies of people will be gathered by agreement to respond as instruments of mercy.

And yet in the midst of all the chaos, the upheaval and violent destruction, great miracles will come forth. This is where the provision of grace will become more than ample--miraculously available. Signs in the heavens above and the earth below shall reveal the presence of a very powerful force of grace, an invisible kingdom guiding the heart of a people to *'ARISE and SHINE for THEIR LIGHT has COME'*.

This is an inner light; it is a *common* and *mutual* understanding, a communion. Their oneness will be established by the recognition of what they are seeing and hearing.

- This will dislodge ancient beliefs, concepts and ideas that have held the mind prisoner.
- For the heart will throw off controlling mindsets, opposing and conflicting mindsets, and mindsets of JUDGMENT.

Peace will come from within. For it is the depth and the foundation of the SOUL of humanity that is being shaken. And yet this will be the 'GREAT AWAKENING.' It will take place in the midst of these things; for the heavens will literally be opened up. Many will ascend back and forth. The Spirit of Elijah (is) coming forth in power and strength, to give voice, to give instruction, and to galvanize a people like a great army to respond with strength. Overlooking all previous adversarial positions and disagreement, to move toward common *cause* and *will*, the nature of this world will suddenly *shift* and *change*."
